Meet
Sarah!

Designed to fit. Made to belong. **1**

All About Sarah!

Hi! My name is Sarah, I am 26 years old and I have Down syndrome, but I like to call it UP syndrome!

I want everyone around the world to see the real me, not just my disability!

I really like my red glasses, they are my favorite because I am part of an improv group called The Improvaneers and each performer needs to have a pop of red! We are going on tour and making a docuseries!

I participate in Special Olympics, I am an avid reader, a social media queen, dancer, actor, friend, and have over 2,000 volunteer hours under my belt!

I am getting ready to move out and into my own apartment with my roommate Maggie in September and I cannot wait!

-Sarah

I am not positive I remember exactly when we discovered Maria and Specs4Us, but it has been years! What a difference these glasses make!

Sarah first got her glasses at about three years old and would not keep them on, these were not Erin's frames. I am sure a small part was her age, but the biggest obstacle was the fit. They slid down her face constantly and she hated them. They were always filthy from her pushing them back up her nose, that is when they weren't hanging on the blinds. This continued for several years until we met Maria!

-Lisa (Sarah's Mom)
